

Autumn 2009 Organic Research Seminars
School of Chemistry
University of St Andrews

**Meetings will be held on Tuesdays at 5 pm in Lecture Theatre C
(unless otherwise noted)**

Date	Speakers	
20 th October	Daniel Smith <i>The application of aza-ylides in chemical biology</i>	Dr Ross Murray <i>Chamuvarinin and Palmerolide: An Update</i>
27 th October	Cesar A. Urbino-Blanco <i>Phosphine tuning in indenylidene-Ru complexes for olefin metathesis</i>	Joanna Wloch <i>Synthesis with Bling</i>
3 rd November	Dr Magali Lorion <i>Rapid access to spiro-indolinone containing compounds</i>	Adele Donaldson <i>Cascade reactions in total synthesis</i>
Wednesday 11 th November 4 pm LT C	Professor Jim Thomas University of Manchester RSC Synthetic Organic Chemistry Award Lecture <i>Approaches to the Total Synthesis of Biologically Active Natural Products</i>	
17 th November	Poh Wai Chia <i>Biomimetic synthesis of marine natural products</i>	Nural Izatty Hassan <i>Designing directed molecular motors</i>
Wednesday 2 nd December 1 pm BMS LT	Dr Gerd Wagner School of Chemical Sciences & Pharmacy, University of East Anglia <i>TBA</i>	
8 th December	James Douglas <i>Shining lights for synthesis</i>	Lisa Pirrie <i>A new approach to the synthesis of the morphine alkaloids</i>
Monday 14 th December 4 pm LT C	Dr Euan Kay MIT, Boston <i>TBA</i>	
Wednesday 16 th December	RSC Perkin Meeting Dundee
