

School of Chemistry Colloquia
University of St Andrews
Semester 2 2009-2010

Lecture Theatre C, Wednesday at 4 pm (unless noted)

3rd February

Dr Frans Berkel, ECN, Petten, The Netherlands

High-Performance Solid Oxide Fuel Cell: Opening windows to low temperature application

Host: Professor J. T. S. Irvine

10th February

Professor Mike Shipman, Warwick

TBA

Host: Dr N. J. Westwood

17th February

Professor Marcel Mayor, Basel, Switzerland

Tailor-Made Molecules as Nanoscale Building Blocks in Molecular Electronics and Beyond...

Host: Dr M. Buck

24th February

Dr Andrew Goodwin, Oxford

Local Structure and Dynamics in Functional Framework Materials

Host: Dr S. E. M. Ashbrook

Monday 1st March

RSC Centenary Prize Award Lecture

Professor Aaron Ciechanover

TBA

Host: RSC – Dr N. J. Westwood

10th March

Professor Richard Taylor, York

TBA

Host: Drs A. D. Smith & G. J. Florence

21st April

Professor Malcolm Chisholm, Ohio

Linking MM Quadruple Bonds (M = Mo or W) with Organic π -Systems: Studies of Mixed Valency and $M_2\delta$ - π Conjugation

Host: EaStChem Visiting Professor – Prof J. D. Woollins

28th April

RSC Chemical Biology Award Symposium

Professor Chris Hunter FRS, Sheffield

Professor Greg Challis, Warwick

Professor Bonnie Wallace, Birbeck College

Professor Emily Parker, Canterbury, New Zealand

Host: RSC – Dr N. J. Westwood

5th May

Professor Frank Neese, Bonn

TBA

Host: Professor M. Buhl
